Online Slots games, like all slot machine games, operate randomly.

This is due to a Random Number Generator contained within the game's software.

The outcome of a spin is automatically determined by the RNG at the time you hit the spin button, making it impossible to predict in advance whether you'll win or lose.

The same random odds apply equally for each spin.

Each Online Slots game has a unique set of symbols (for example, a bar, cherrie) Tj T* BT /F

Some symbols may seem to show up only occasionally on the reel, while other symbols may appear frequently or more often.

All Online Slots games have a virtual reel that determines whether you win or not.

Before playing any Online Slots game, it is important to read the game rules and pay table carefully before deciding if you want to play and, if so, what you should wager.
